Policy Document on Environment and Energy Usage

Our institution's environmental and energy use policy aims to manage energy in a systematic way that minimizes its impact on the environment. The policy includes exploring renewable energy resources to reduce the burden on the government and finding substitutes for natural resources as a solution to the energy crisis. This environmental and energy policy is binding on all components of the institution and applies to all stakeholders and to the various activities of the institution. It will help us to incorporate efficiency and environmental awareness in our daily activities and thus fulfill our responsibility and obligation to conserve natural resources and limit their consumption. The NSS unit of our college is dedicated to promote environmental awareness to take green initiatives and implement green literacy program to conserve energy and protect the environment.

Policies:

- To assess our energy usage and measure its impact on the environment.
- To aware our stakeholders to reduce the emission of CO₂ from various means of transportations- vehicles.
- To reduce local air pollution by encouraging the use of environment-friendly vehicles, including bicycles, public transportation and use of pedestrian-friendly roads.

- To install photovoltaic solar panels for the generation of alternate energy in future if possible.
- To promote the use of LED bulbs in the whole campus to save energy.
- To develop systematic waste management mechanism.
- To install rain water harvesting system in future.
- To undertake tree plantation drive.
- To take additional measures to continuously improve our energy consumption.
- To ensure the availability of necessary resources to achieve our objectives.
- To encourage use of advanced technology to minimize energy consumption, atmospheric emissions and noise, particularly from our vehicle fleets.
- To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance.
- To provide information and training opportunities on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives those contribute to environmental protection.

This policy will be communicated to the students and employees via internal communication channels, and will be made available to all the stakeholders on the institutional website. The Environment and Energy Policy, objectives and targets will be reviewed on a regular basis by the NSS program officer and IQAC under the guidance of the Principal of the college.
